

ABRO[®]

INDUSTRIES, INC.

A TRUSTED NAME WORLDWIDE[™]

ABRO WORLD HEADQUARTERS
South Bend, Indiana, U.S.A.

For nearly 70 years, the ABRO® name has been synonymous with quality in the industrial, automotive, and consumer marketplace. With distribution in over 175 countries, we have attained worldwide recognition and prominence for the excellence and competitiveness of our products.

The success of ABRO® INDUSTRIES is attributed to an intense customer-oriented philosophy with management, manufacturing, sales, and distribution all dedicated to serving our distributors.

ABRO® has always strongly believed in participating in trade shows. Over the years we have taken part in Saudibuild, Automechanika, Cologne Tool Show, Auto Salon (Moscow), Auto China, and the AAPEX Automotive Show in Las Vegas.

Our modern warehouse, located in Charleston, South Carolina, allows us to develop small customers into large customers. Freight is always a consideration in any export transaction. By warehousing our ABRO® products near an international port, we enable customers to purchase a wide variety of products to fill a container. This new location will

significantly reduce our inland freight costs while greatly increasing our vessel sailing options. This, in turn, will enable us to be more competitive and provide better service to our distributors.

ABRO®'s unique combination of ongoing market research, new product development, trade show participation, and proprietary export documentation are designed to meet the challenges of an ever-changing world.

ABRO OFFERS ENGINE AND FUEL ADDITIVES OF THE HIGHEST QUALITY

- ABRO® Engine and Fuel Additives help keep harmful deposits from building up in engine fuel intake systems, including fuel injectors and carburetors. In order to maintain maximum performance, it is important to keep the fuel system free of deposits. By removing deposits in fuel systems, the vehicle can be restored to its optimum performance level.
- ABRO® Engine and Fuel Additives help maximize fuel efficiency, decrease hard starts, restore lost acceleration and decrease rough idling.
- ABRO® Engine and Fuel Additives are individually labeled for proper usage. This information can be found on the back label of the bottle. Typically, one bottle of additive can treat up to 20 gallons (90L).

LUBRICANTS

MOTOR OIL

ABRO® OFFERS A WIDE VARIETY OF QUALITY LUBRICANTS:

ABRO® *Non-Detergent Motor Oils* are manufactured with 100% virgin base oil and fortified with an anti-foaming additive for extra engine lubrication at an economical price.

ABRO® *Detergent and Premium Motor Oils* are available in mono-grade and multi-grade viscosity. They are highly refined general purpose oils for gasoline and diesel engines. The multi-grade products are manufactured with a select blend of virgin base oils combined with a premium viscosity index modifier to assure easier starts in cold weather and to protect against oil thinning in hot climates. These economical but durable lubricants are ideal for automotive and truck engines (gasoline and diesel) manufactured anywhere in the world.

ABRO® *100% Synthetic and Synthetic Blend Motor Oils* are high-tech lubricants designed to exceed the most challenging demands of high performance, high RPM, and close tolerance engines. Ideal for turbo-charged and normally aspirated engines. Compatible with all synthetic, semi-synthetic and conventional mineral based motor oils.
