## **FULL YEAR RESULTS 2018**

Media Capital posts a net profit of € 21.6 million, 9% above 2017

- In 2018, Media Capital kept its leadership in audiences and profitability, strengthening its position in the competitive Portuguese media sector.
- Consolidated EBITDA reached € 40.2 million, in line with 2017.
- On a comparable basis (i.e. 2017 adjusted for IFRS 15), advertising grew by 3% vs 2017.
- It is worth highlighting the **cash flow generation**, with an improvement in operating cash flow from € 29.5 million to € 35.0 million, whereas net debt came down € 9.6 million when comparing against YE 2017, despite the € 18.6 million paid out as dividends. Hence, net debt stood at € 85.7 million at the end of 2018.
- **Financial results** improved 34% YoY, due to the lower average volume of net debt, lower all-in interest rate and favourable FX differences.
- The TV segment had an EBITDA of € 30.3 million. TVI kept the leadership in TV audience share for the 149th straight month, achieving an average share of 20.0% and 23.6% in all day and prime time, respectively. The gap over the second most watched channel was 3.5pp in all day and 3.3pp in prime time. TVI's leadership in audiences was also maintained when analyzing by groups of channels (TVI, TVI24, TVI Ficção and TVI Reality, in the case of TVI), with 22.9% in all day and 26.0% in prime time, i.e., respectively 2.7pp and 2.4pp above the second most watched group of channels, although TVI has a lower number of channels.
- The Radio segment continued to improve its EBITDA, which in this period rose by 14% YoY to € 7.4 million, with a margin of 38.1%. Media Capital's radios continued to increase their audience levels, reaching an average figure of 37.1% in 2018, the highest ever, also being the 7<sup>th</sup> consecutive year with positive growth. Such performance benefited from the success of Radio Comercial, which this year reached the highest number of listeners ever for a Portuguese radio in the 3<sup>rd</sup> audience reading (more than 1.5 million listeners), whereas M80 remained as the third most listened to radio in Portugal.
- In the **Digital** business there was a strong improvement in audiences and revenues. In the comparison against 2017, the number of visits, page views and videos rose by 19%, 29% and 51% respectively, thus decisively contributing for the 19% increase in advertising revenues.

Queluz de Baixo, 25th February 2019

Introductory Note: 2017 values are presented on a pro-forma basis, incorporating the adoption of IFRS 15 - Revenues from Contracts with Customers - that took place since 1 January 2018. This implied an increase in both revenues and costs in the exact same amount, i.e. neutral EBITDA and cash flow wise. In terms of reported segments, the only one affected is TV.

Plural continues to be one the main players in the audiovisual production sector, also with a relevant presence in the associated technical services/equipment and scenic design and construction. In 2018, it kept its leadership not only in fiction, with the production of the novelas "A Herdeira", "Jogo Duplo", "Valor da Vida" and "A Teia", but also in entertainment, through the adaptation of the international format "Apanha se Puderes" ("Raid the Cage"), a contest which leads audience since its debut, in the 7-8pm time slot, during weekdays.

Furthermore, EMAV (technical services and equipment) rendered its services to several important audiovisual players in Iberia, and was responsible for the technical support to the broadcasting of various sports. In turn, EPC (scenery design and construction) was again one of the main suppliers in the Portuguese market – in the areas of entertainment, fiction and news, among other, with a special highlight for the involvement in the Eurovision Song Contest.

This segment had **operating revenues** of  $\[ \in \]$  32.8 million (+3 YoY), primarily due to an increase of content production in Portugal. In 4Q, the YoY variation was negative (-14%), as content production was mostly concentrated in the first nine months, whereas in 2017 it was the other way around.

In **Portugal**, revenues were up 2% YoY, as a result of higher activity in all areas.

In **Spain**, the activity is reduced to residual levels, with a slim and flexible structure, the necessary one to address attractive commercial opportunities.

**Opex** was flat vs 2018 (-7% in the quarter, due to the variation in the activity).

Hence, **EBITDA** reached a positive figure of € 0.7 million, substantially improving from the € -0.3 million in 2017. In the quarter, EBITDA was € 0.4 million, comparing with € 1.3 million in 4Q 2017.

Audience data continues to underline the good performance of the various radio stations held by Media Capital Rádios (MCR).

In the fifth audience measurement published in 2018, MCR had a share of 33.6%, thus placing the average share for 2018 at 37.1%, the highest ever, and comparing against 36.4% in 2017, being also que 7<sup>th</sup> consecutive year of increase in audience share. The 2018 figure outpaces the second most listened to competitor by 2.2pp.

It is worth highlighting the performance of Radio Comercial, which improved its share for the 5<sup>th</sup> consecutive year, going from 24.2% in 2017 to 24.3% in 2018.

Also worth noting is the fact that in the third audience reading, Radio Comercial registered the highest level ever of listeners for a Portuguese radio (18.0%, corresponding to more than 1.5 million people).

In turn, M80 showed great consistency, with an average audience share of 8.5%, the same as in 2017. M80 thus continues to be not only the most-listened-to radio station among those without a nationwide coverage, but it also stands out as the overall third most listened-to radio station in the country.

As for other formats, **Cidade FM** had a share of 2.3%.

Despite the outstanding on air performance so far this year, 2018 has been ground-breaking on digital as well. As a matter of fact, MCR created 14 web radios: 11 for M80 and 3 for Smooth FM. These are streaming radios that segment the most relevant clusters (both in genre and decades) for these FM formats. Such radios are not based on algorithms but rather on carefully playlists cherry picked by each format's team, both with a vast experience. This offer is available also through apps, and provides an invaluable extension of the FM products, thus increasing contact and brand awareness among listeners and advertisers, while proving that the Group's radios are already fully immerged in the digital transformation process.

Finally, Radio Comercial was distinguished as "Rádio do Ano" ("Radio of the Year"), by Meios & Publicidade.

On financial grounds, **advertising revenues** improved 4% YoY (6% in 4Q), while other operating revenues grew 25% to € 0.9 million (+3% in 4Q), driven mostly by events and spots production.

Operating efficiency continued, with **Opex** flat vs 2017. The YoY variation for 4Q was +12%.

**EBITDA** soared 14% to € 7.4 million, with a 38.1% margin (stable YoY at € 2.9 million in 4Q, with a margin of 50.9%).
